SITUATION SUMMARY

Summerset Apartments Incident, Fresno, Fresno County

There was a loss of natural gas to the Summerset Apartment complex near Fresno Street and Clinton in the City of Fresno. The complex has 220 units and houses 1,500 – 1,800 residents who are primarily southeast Asian refugees – about 25 of the units are Section 8. The complex has a private gas distribution system that has once supply point from PG&E. About 10 days ago the natural gas was turned off to make repairs. On Friday, 11/20/15, the City became aware of the complexity of the repairs needed and confirmed that large portions of the gas lines will not hold pressure. The residents rely on gas for heat, hot water and drying clothes. Repairs are estimated to take 3 weeks. The first priority is to ensure life-safety issues are addressed. The concern is residents will bring in portable gas appliances. The City Fire Department will have a 24 hour fire watch onsite until all detectors are installed.

- At 1423 hours on 11/26/15 the Cal OES Inland Duty Officer confirmed that the mobile showers and kitchen are on-scene and will be there for the next 3 weeks.
- On 11/24/15, the City of Fresno determined that a shelter will not be needed.
- The City is in the leadership role with Red Cross serving as technical assistance, support and convening of necessary partners to support. County OES is not planning to activate at this time.
- Fresno Interdenominational Refugee Ministries (FIRM) is a local partner, with facilities adjacent to the apartment complex, that ARC has positioned in a lead role for feeding. ARC has been supporting this partner with food and staff and is looking to local churches to assist as well.
- Southern Baptist will train FIRM on how to run the kitchen and cook culturally appropriate meals. ARC has a local partner that will help develop a suitable menu.
- Currently, ARC believes approximately 10 medically sensitive individuals have been identified. Department of Public Health (DPH) has been asked to identify newborns or others with health issues.
- Residents speak various dialects of Hmong, Vietnamese, Cambodian, and Laotian. DPH has offered to support the project with translators and will reach out to Behavioral Health and Social Services to see if they have resources.
- On 11/25/15 at 1722 hours the California State Warning Center (CSWC) received two unsigned Resolutions from the City of Fresno declaring the existence of a local emergency due to an inoperable natural gas line at 2103 N. Angus Street, Fresno, California. There are no requests for State assistance.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought.

Weather of Concern

- In Northern California, cold morning temperatures can be expected this weekend, especially Sunday morning. Saturday morning temperature may hover around freezing where the wind dies down. However, Sunday should be colder as the wind throughout much of the Central Valley lets up and temperatures will drop from mid 20s to low 30s.
- Occasional showers, with brief heavy bursts of rain and mountain snow, continuing this afternoon throughout Southern California. Best chances will be over Orange, San Diego and Riverside Counties. Tapering off towards evening. 1-2 inches of new snow possible. Some really heavy rainfall along I – 5 from around Camp Pendleton north to the around Mission Viejo is causing some ponding of water on roadways. Some small hail has also been reported with some of the intense showers.
- Freeze Watches and Warnings and Hard Freeze Watches and Warnings in effect throughout a large portion of the California coast as well as the Sacramento and San Joaquin Valleys and the Inland Empire.

WEATHER

WEATHER SYNOPSIS BY REGION:

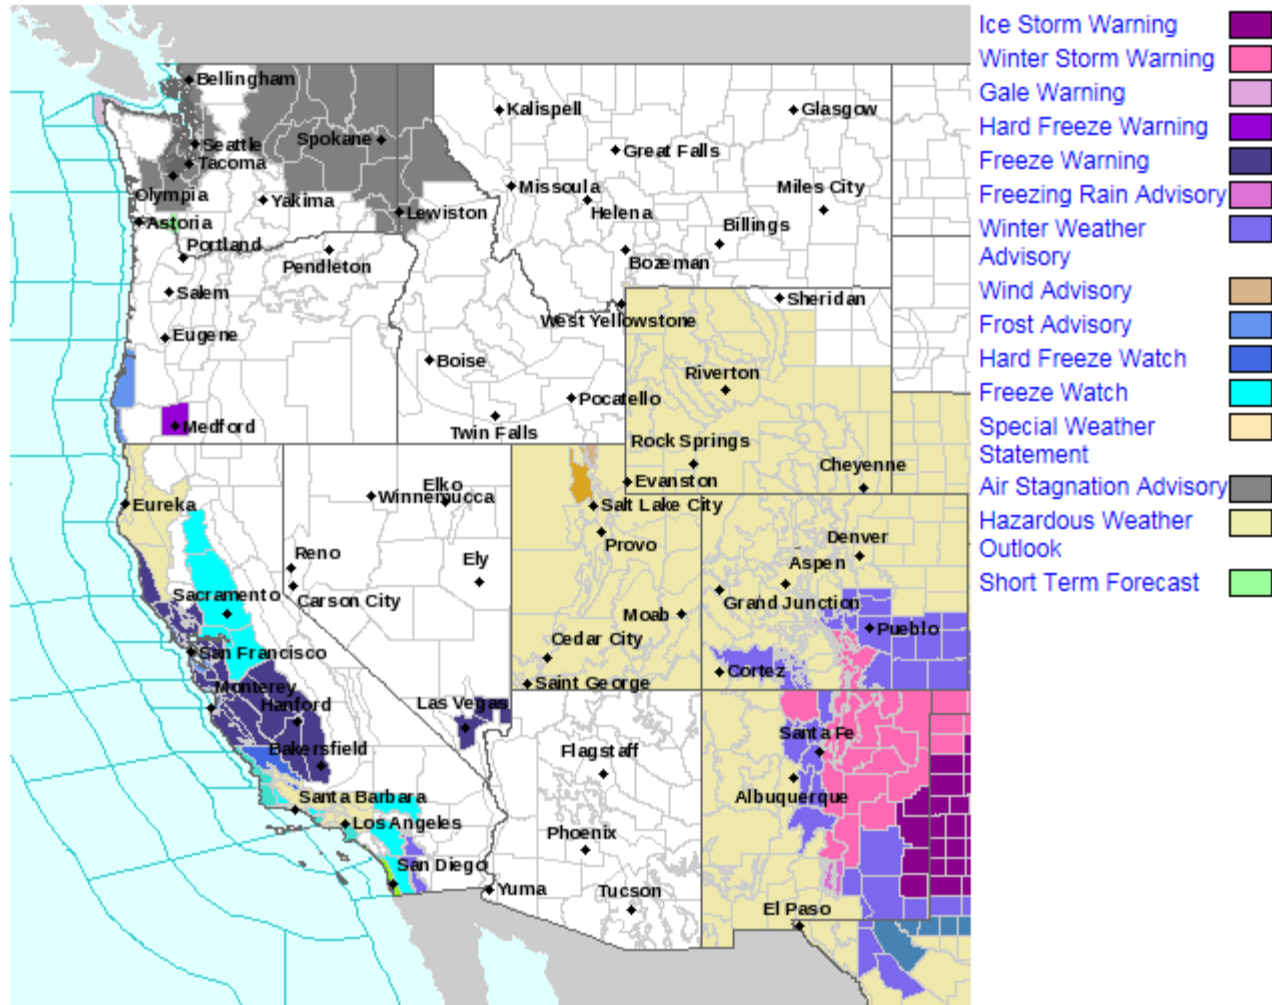

NORTHERN CALIFORNIA

Snow showers may linger near the Sierra crest tonight into Saturday, but moisture is very limited so not expecting much activity. High pressure to the northwest will allow for cold air to continue through the weekend. Morning lows will hover near the freezing mark in the valley both Saturday and Sunday morning, with temperatures a few degrees colder on Sunday morning given lighter winds. Daytime temperatures will remain several degrees below normal. Breezy northerly winds across the western side of the Sacramento Valley will decrease tonight into Saturday although a few gusts on the order of 15-20 mph still possible. Next system of interest may approach the West Coast during the day Monday. Models currently depict wave fizzling out as it moves onshore so limited chances for much precipitation with it with best chances across northern and western portions of the area.

SOUTHERN CALIFORNIA

An area of low pressure currently over Nevada will maintain well below normal temperatures across the region through this weekend, with mid 30s to mid 40s in the mountains and mid 50s to mid 60s in the valleys. Scattered showers with less than a quarter inch of rainfall will occur over the Sierra and across Southern California through this afternoon. The snow level will be between 3,000 and 4,000 feet. A weak ridge of high pressure will build into California from the Pacific bringing a warming trend and low humidity to most of the region Monday through Wednesday. Temperatures will be near to slightly above normal by Wednesday. Winds will be light through the middle of next week. A Pacific trough will move inland into the West Coast bringing cooler temperatures to the region and scattered showers with light rainfall totals to most of Central California. This trough will also bring gusty westerly winds to the mountain ridges and desert passes Thursday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
